

NIPPON ENERGY 0W20

SYNTHETIC MOTOR OIL

DESCRIPTION

Nippon Energy is a fuel economy motor oil, developed according to the most recent technology: based on specially selected synthetic base oils and a well balanced choice of advanced additives.

Due to its special composition, this product may well be applied to very low temperatures, such as under arctic conditions may occur.

PROPERTIES

- Lower fuel consumption.
- High and stable viscosity index.
- Good resistance against shearing.
- Fast cold start, even at very low temperatures.
- Safe lubrication film at very high temperatures.
- Very good detergency and dispersion power.
- Very strong protection against wear, corrosion and foaming.

APPLICATION

This fuel economy, specially composed motor oil, is recommended for use in petrol and diesel engines, with or without turbo-charging, in passenger cars and delivery vans. By its unique composition, this oil is also excellent for Hybrid and other Eco versions as brought by various OEM's in the market. Due to its special composition, this product may well be applied to very low temperatures, such as under arctic conditions may occur.

Apply the correct amount of oil indicated in the operating instructions of the vehicle and engine manufacture.
